THE FIRST
TWENTY-FIVE YEARS

CLASS OF 1928

This book is dedicated with respect and affection to

Ernest M. Hopkins

FOREWORD

It has been fun compiling this record of the first twenty-five years of 1928's experiences in the "wide, wide world."

The unusual feature of this book is that a phenomenally large percentage of men (and wives, bless their hearts) sent in family pictures and questionnaires. You will find herein biographical material on 611 men, or 95% of the Class. Experience of earlier classes indicated that we'd be lucky to get 160 family pictures, but with insistent prodding we wound up with 262! Our thanks to all of you for your cooperation.

The information on which the biographies have been prepared has been compiled from several sources. The chief source, of course, has been the questionnaire filled in by the man himself, but many individuals have been unduly modest and their questionnaires alone have not told all that was interesting about them. The Class files, letters from friends, and information gleaned in other ways have been used in these cases.

We have tried to be accurate, but in any work of this size and sort, inaccuracies and omissions are almost inevitable and we apologize for them. Please tell us promptly of any lack of statement or misstatements you notice.

In most volumes such as this some discrimination between graduates and non-graduates is usually made, - we have eliminated this. Fortunately we possess in our Class a large number of non-graduates (including many who graduated from other colleges) who are among our most active and our most generous members. As the years roll on good Dartmouth men are judged not by the length of time in Hanover, or by the records of undergraduate years - but by their present and future loyalty to College and Class. This is certainly as it should be.

Appreciation is expressed to Charlotte Ford, in charge of the Alumni Records Office, to Charles Widmayer, editor of the Alumni Magazine and to Sidney Hayward, Secretary of the College, for their help and encouragement, and to the following '28ers for their willingness to dismantle memory books to get the pictures of undergraduate days: G. Adams, Andrus, Bavier, Estabrook, Frame, Gere, Hazzard, Heyn, Holden, Jewett, Kitts, Kruming, J. Lyman, J. McGrath, Marx, Moulton, Prosser, Sherman, Joe Smith, Whaley, Winchester.

As we turn in our copy to the printer, our hope is that this book will bring you as much pleasure in reading it as we have had in the past five months in preparing it.

And we believe that, both individually and collectively, 1928 measures up to the finest in the Dartmouth tradition.

Dartmouth! —there is no music for our singing,
No words to bear the burden of our praise,
Yet how can we be silent and remember
The splendor and the fullness of her days!

Who can forget her soft September sunsets,
Who can forget those hours that passed like dreams—
The long cold shadows floating on the campus,
The drifting beauty where the twilight streams?

Who can forget her sharp and misty mornings,
The clanging bells, the crunch of feet on snow,
Her sparkling noons, the crowding into Commons,
Her long white afternoons, her twilight glow?

See! By the light of many thousand sunsets
Dartmouth Undying like a vision starts:
Dartmouth—the gleaming, dreaming walls of Dartmouth
Miraculously builded in our hearts.
